Bar Design Services

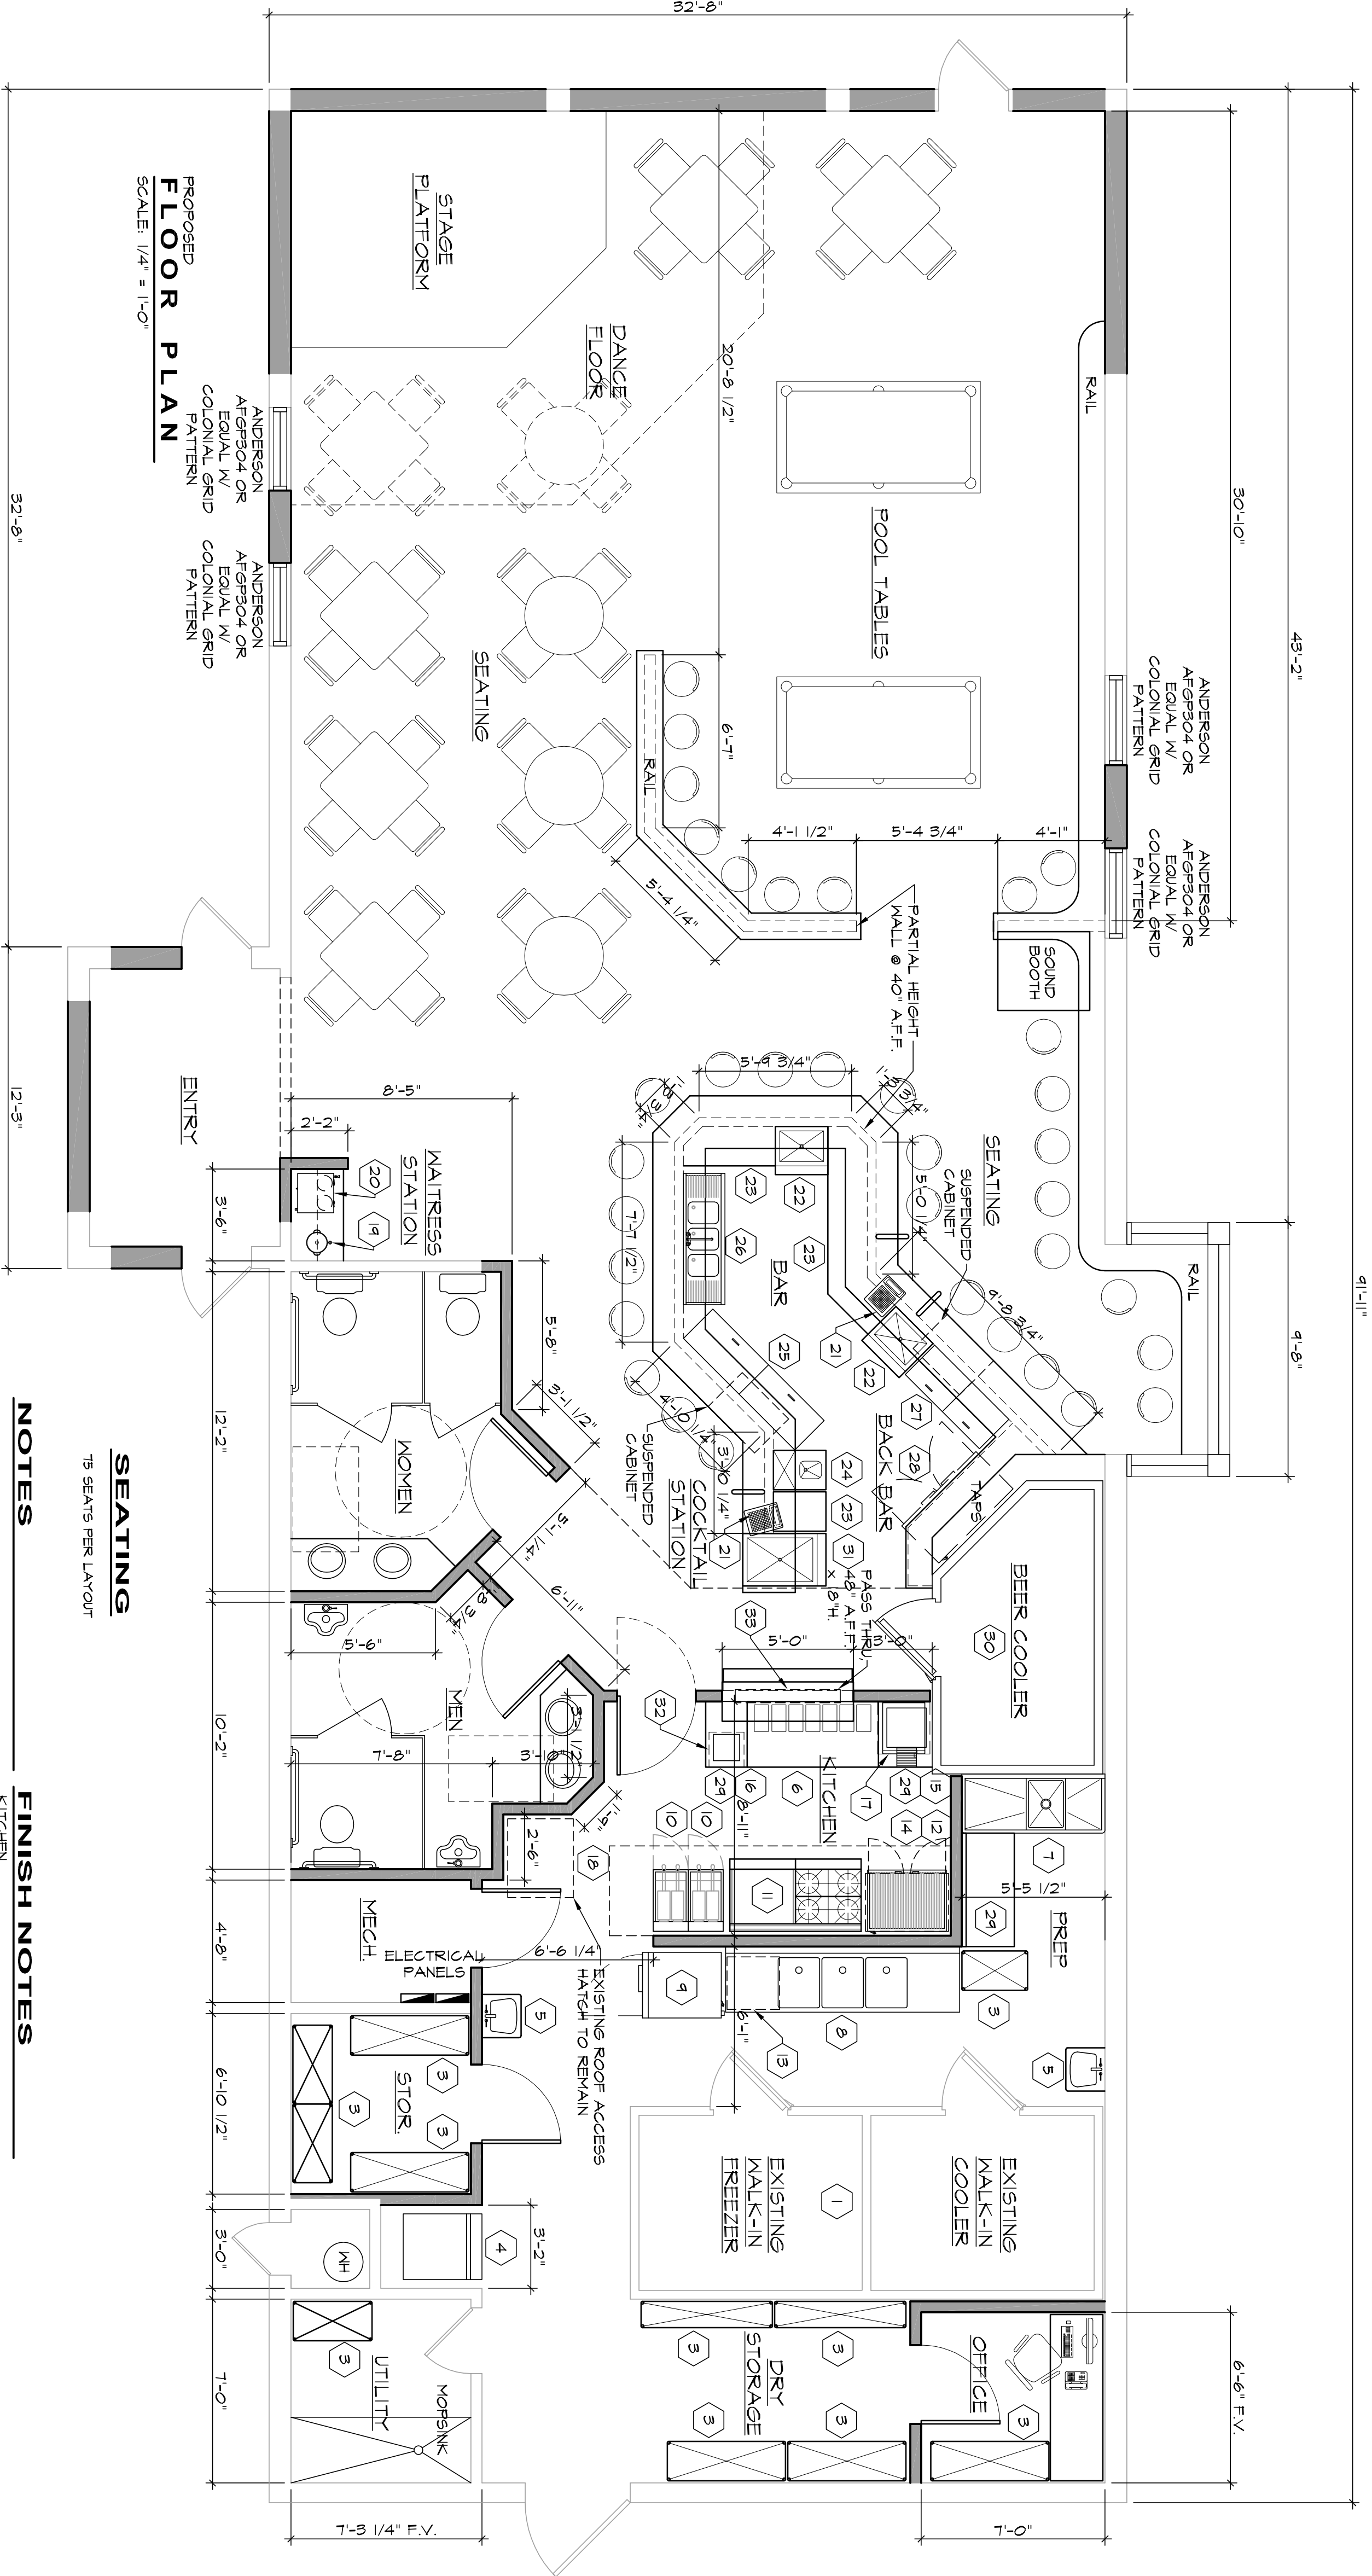

Global Restaurant Source is your full service Bar, Nightclub, & Pub Design Firm! Let us design, create and market your Bar, Nightclub, or Pub! The headaches in dealing with multiple companies can be avoided by partnering with GRS for your new project needs!

We have years of experience in the process of designing, engineering, building and furnishing bars, nightclubs, and pubs. The company's goal has always been to specialize in the beverage service industry. Beverage service is a huge portion of the foodservice industry and naturally it is integral to the continued success of your business. With that in mind we have grown our services to provide specialized turnkey business solutions for the beverage industry's modern needs. We are able to provide cutting-edge technologies (at affordable prices) that are essential to your successful operation. Because GRS is part of one of the nation's largest buying groups we are able to assure both independent and corporate business owners that they always will receive the best possible pricing. Our experience with delivering projects from the beginning stages of the design phase to the grand opening of the business speaks for itself.

Our Construction Division can coordinate your entire bar, nightclub, or pub project build-out from the design phase to completion. Global Restaurant Source has the experience you need when it comes to designing, building and furnishing bars, nightclubs, and lounges.

POS Systems

Everything necessary to get your restaurant up and running with a complete, computer-based restaurant POS System. Ideal for sit-down restaurants. With multiple servers and table layouts, the POS System comes preconfigured to work with the included hardware right out of the box, minimizing the time between receiving the system and being ready to go.

Features such as 100% Touch Screen Point of Sale, Cashier and Staff Banking, Night Bar Processing, House Accounts, Repeat Buyer Program, Inventory and Recipe Control, Labor Scheduling and Time Tracking, Reservation and Seating Management, Delivery driver tracking and much more are all standard features included at no additional cost.

Our partners provide an affordable, easy to use, feature rich, and 100% multi-lingual restaurant point of sale and store management solution.

It is feature packed and is flexible enough to handle even the most demanding restaurants!

User intuitiveness and ease of use were the design principals of our POS Systems. They are 100% 32-bit MS Windows based, and 100% touch screen operated point of sales. Whether your current restaurant system is paper based or another POS software solution, our software is the ideal software to replace your current system, and give you much better control and efficiency!
